

SAGO mini FRIENDS Earth Day

Supplies you'll need

crayons

scissors

tape

2 toilet paper tubes

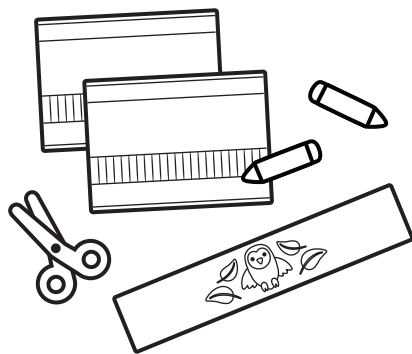

hole punch

string

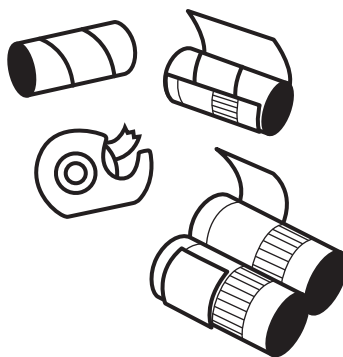

Celebrate Earth Day with an outdoor scavenger hunt! Make your own binoculars from recycled materials and start exploring!

DIY Binocular Instructions

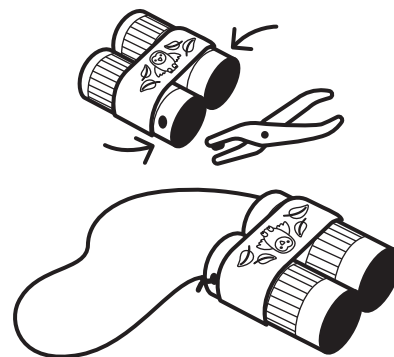

1. Print, color, and cut

Print out the activity and color it in. Cut out binocular pieces along the dotted line.

2. Wrap tubes and tape

Wrap each tube with the cover and secure with tape. Take the outer wrap and place it over both tubes and tape everything in place.

3. Attach string

Punch a hole on opposite side of each tube. Cut a piece of string around 2 feet long and tie each end on either side.

Total: _____

Instructions:

It's a nature scavenger hunt! Plan for a walk outside and bring this list, your binoculars, and a crayon to see how many of these critters and things you can spot in the wild.
