

# Ponds

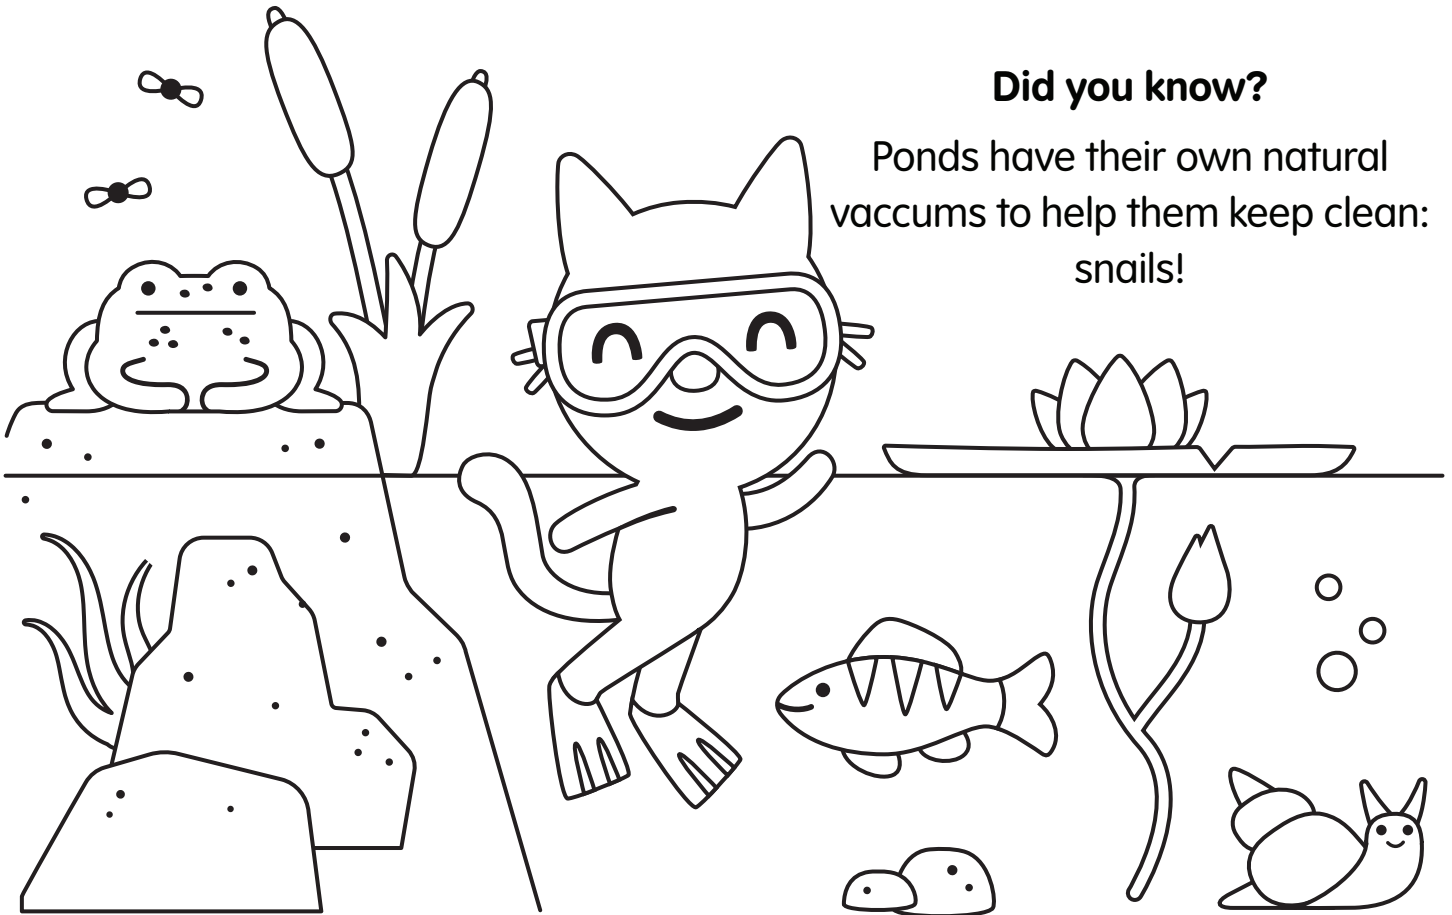

## Supplies you'll need

crayons   scissors   glue   pencil

## Did you know?

Ponds have their own natural  
vaccums to help them keep clean:  
snails!

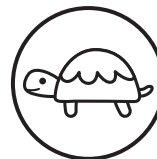

## Activities included in this set

Sort the critters  
by habitat.

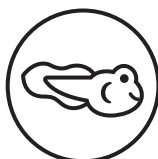

Measure frog  
tongues.

Color and create  
a 3D turtle pal.

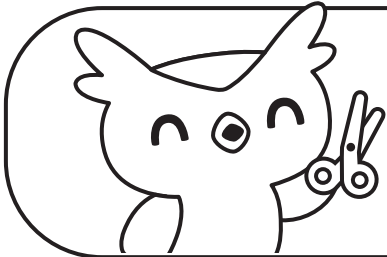

Navigate through  
a shell maze.

Sequence the  
frog life cycle.

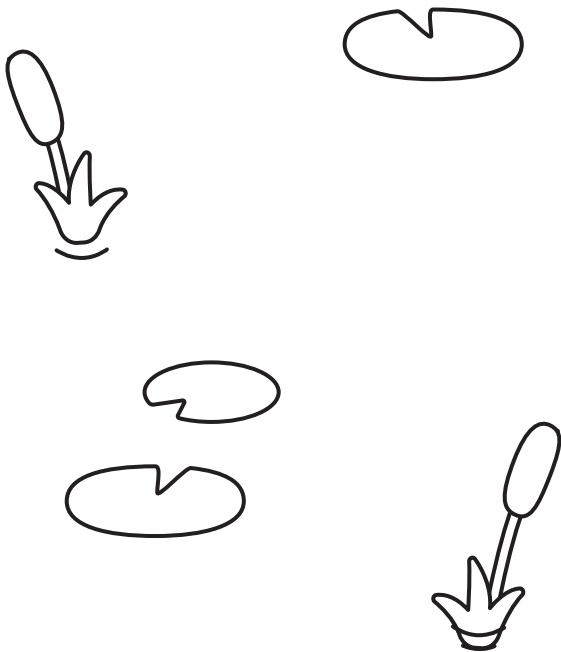

### Instructions:

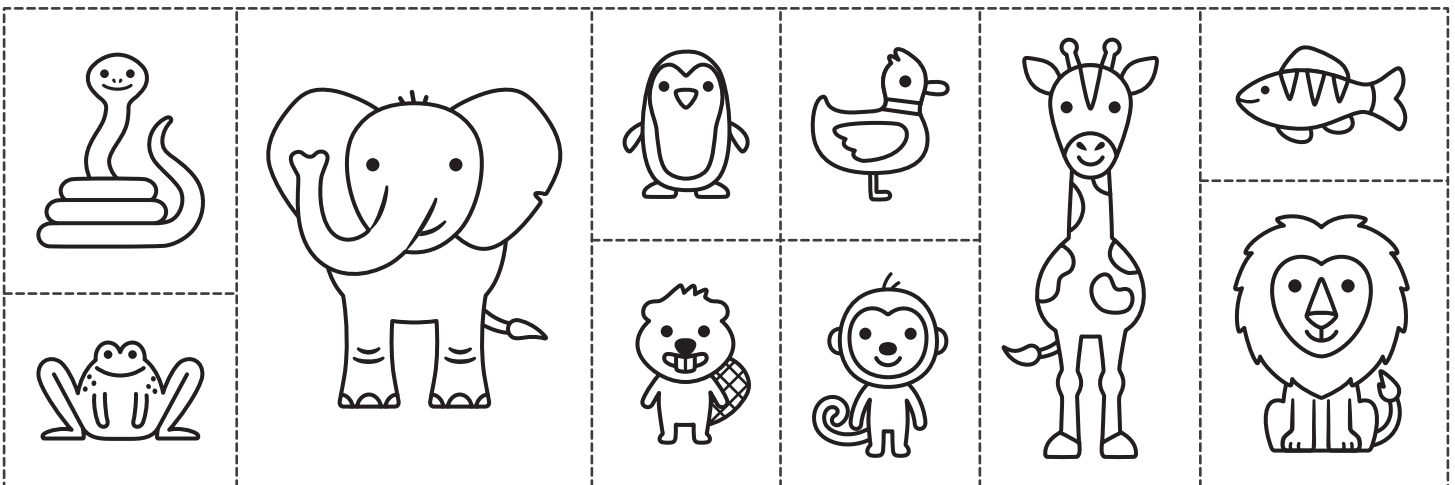

Color and cut the pictures below.  
Which critters are found in a pond and which  
are not? Paste them in!

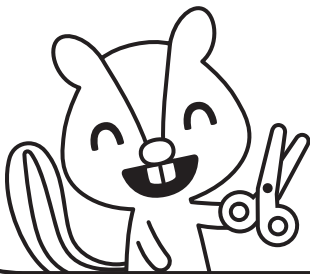

### Lives in a pond

### Does NOT Live in a pond

## Instructions:

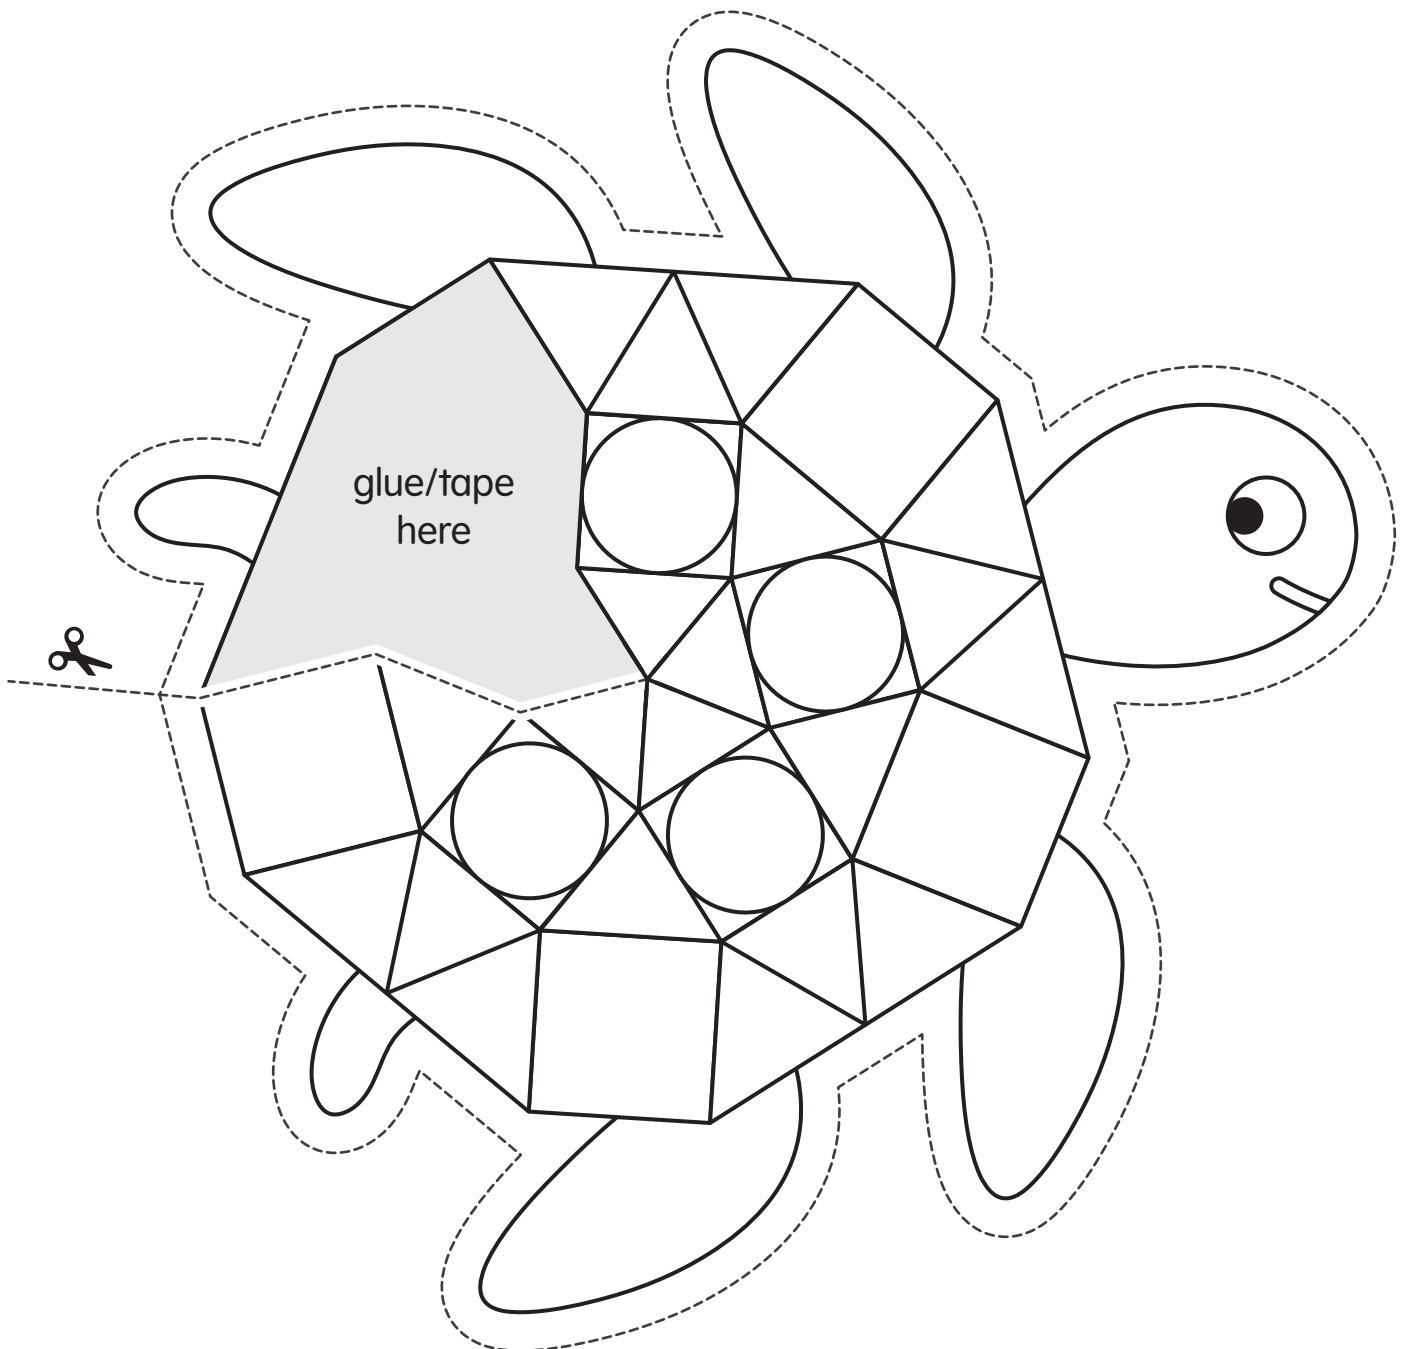

Create a pond pal! First, color by shape:

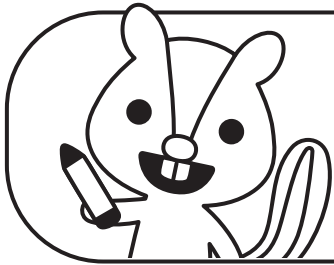

**Squares = Blue**

**Triangles = Yellow**

**Circles = Green**

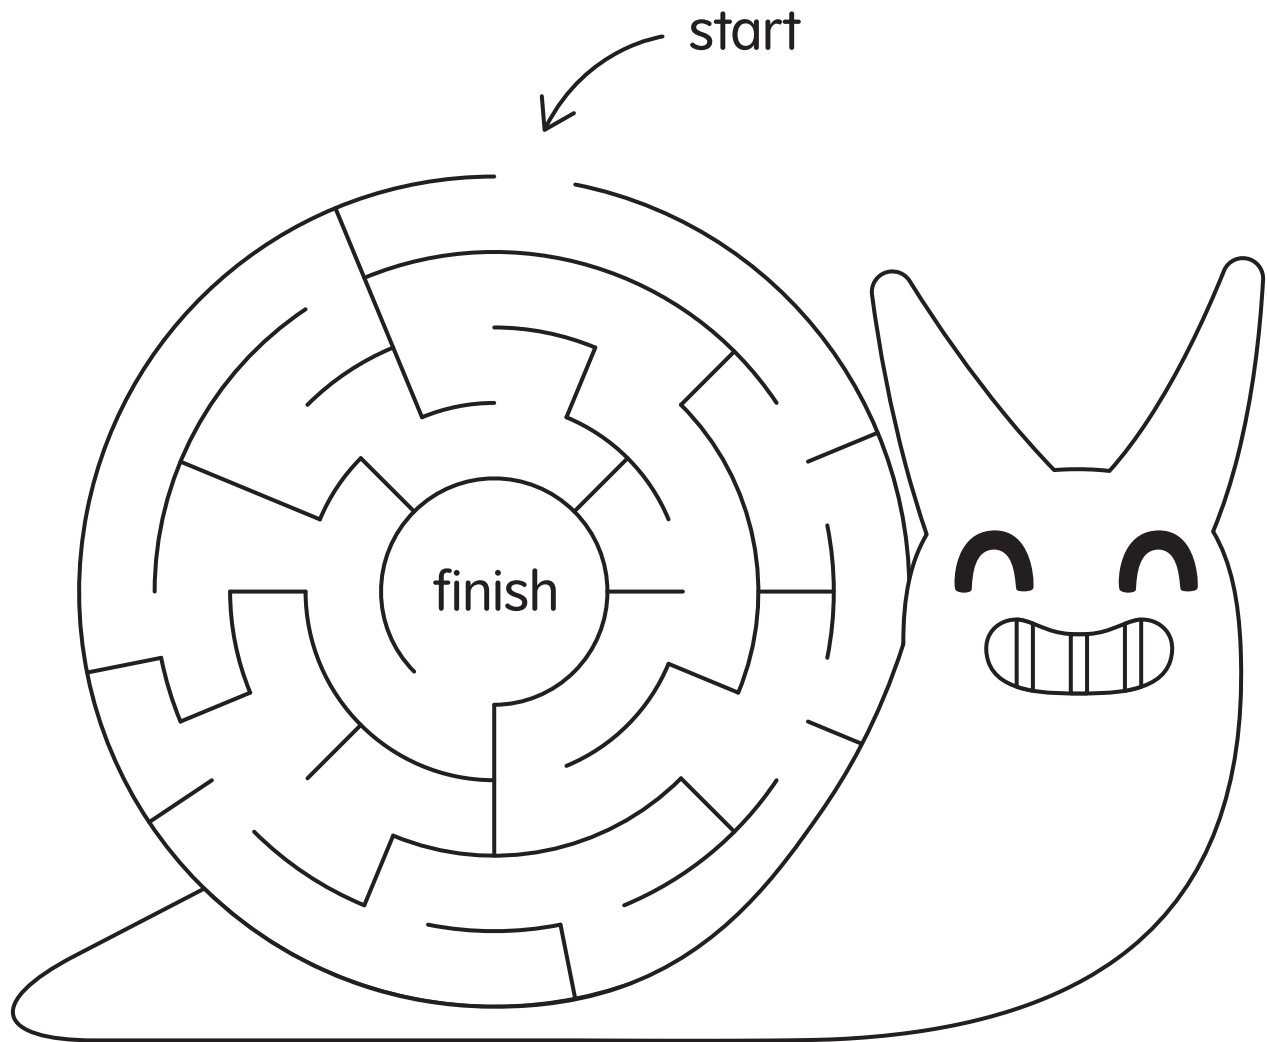

Then, cut the turtle out and glue or tape the shell tabs together to complete your colorful critter.

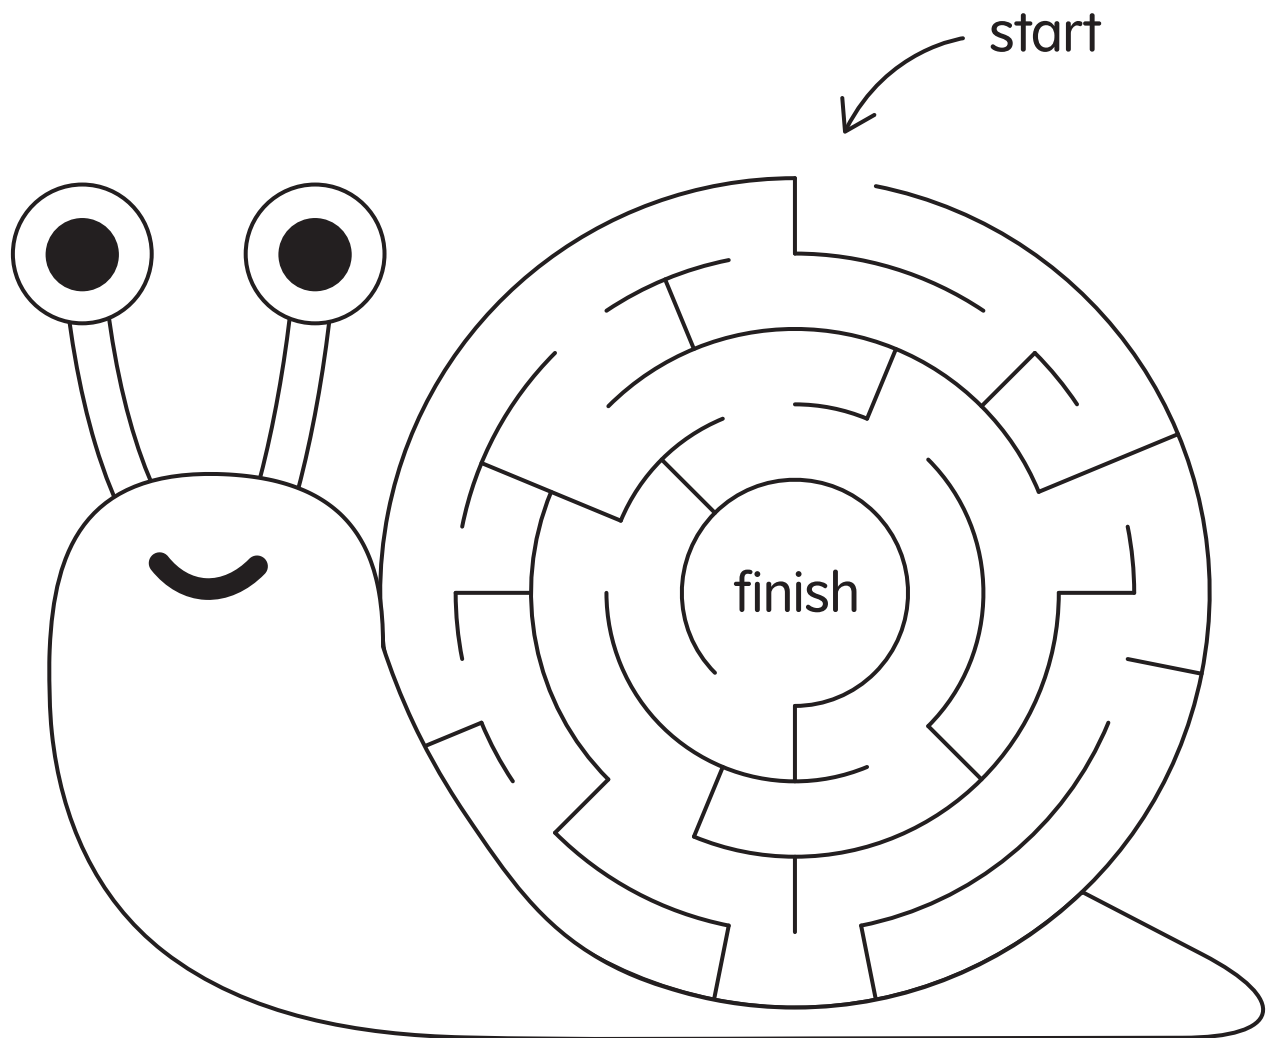

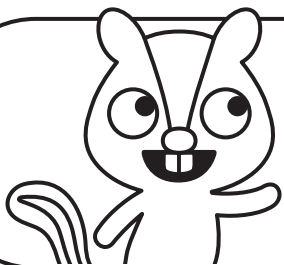

**Instructions:**

Draw a path from start to finish to complete the shell maze.

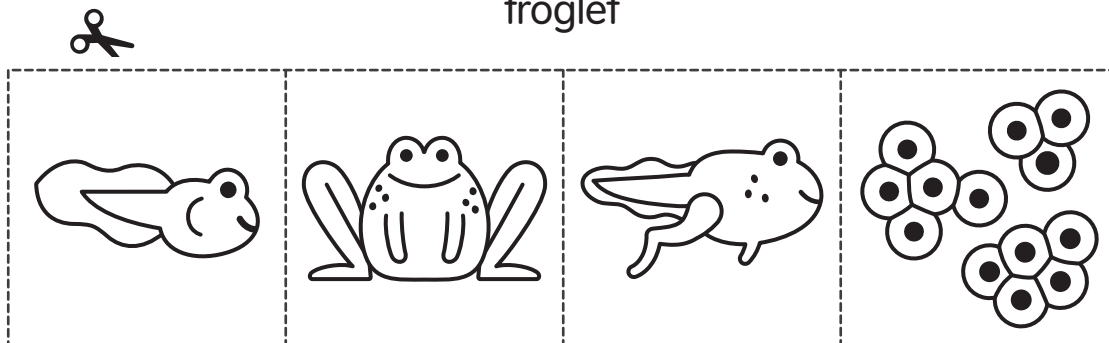

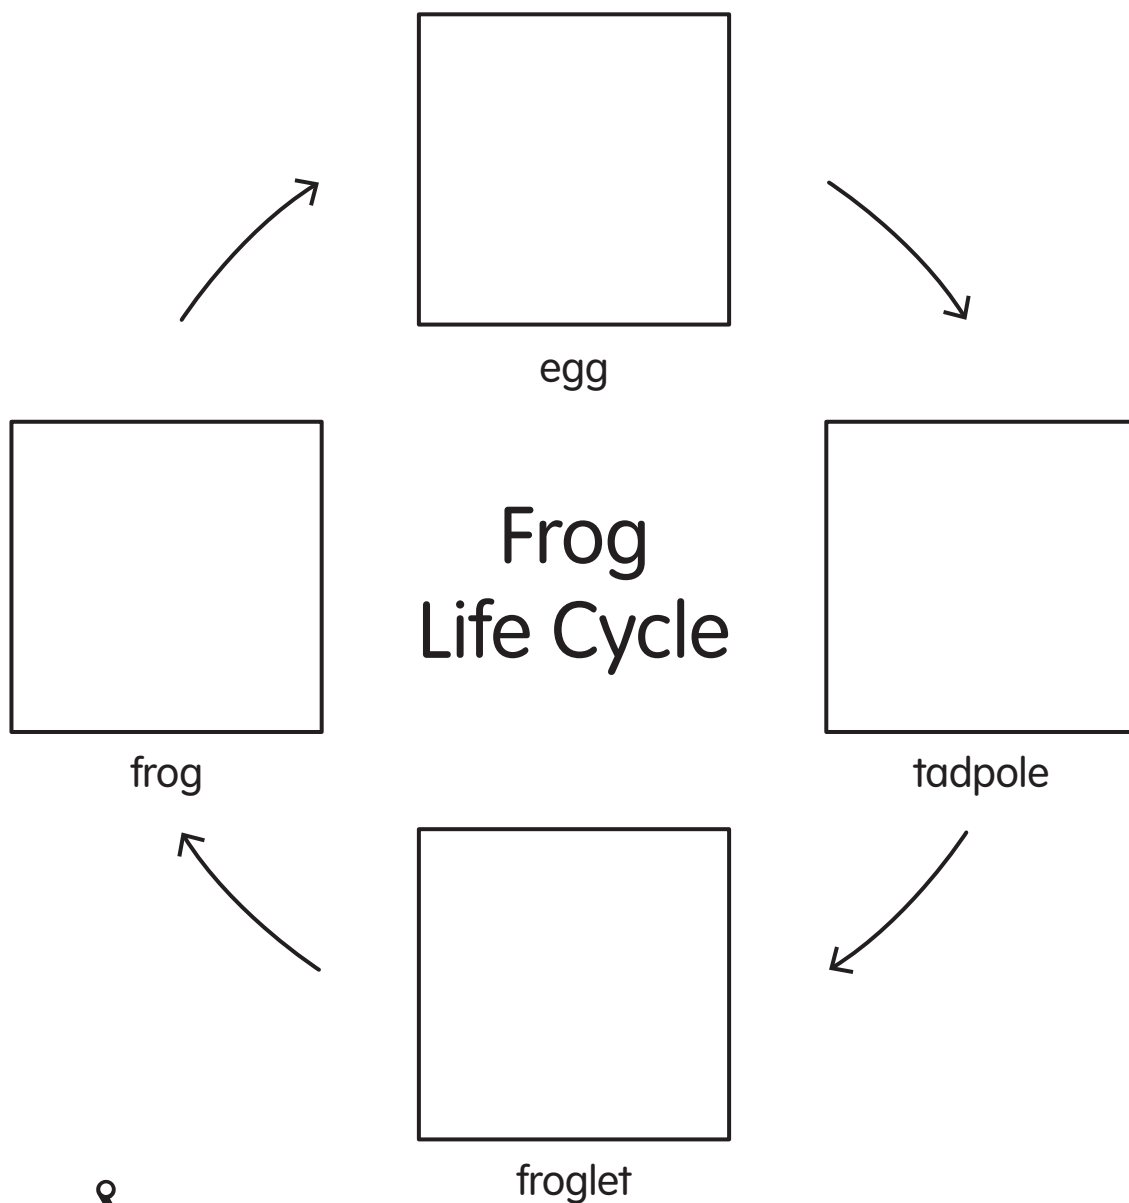

### Instructions:

Order the frog's life cycle phases. Color, label, and cut the pictures below. Paste them in order from egg to frog!

**SAGO**  
**mini**

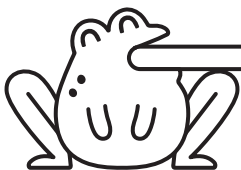

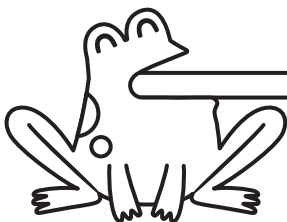

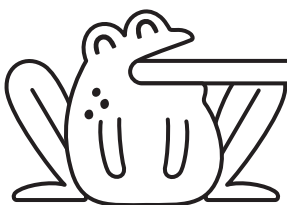

### Instructions:

How many flies can these frogs eat? Cut and use the fly ruler to measure how many flies can fit on their tongues.
